

December 14, 2022

Dear King Members, Friends, and Family:

During the Holiday season as our members and their family members are gathering and celebrating together once again, we ask that you be mindful of your potential exposure to COVID-19. Please continue do your part to lower the spread of COVID and other seasonal illnesses when you visit our Home.

Since we last updated you yesterday, we have had 1 member and 2 employees test positive for COVID-19. Accounting for all recent recoveries, currently we have 5 total cases of COVID-19 on campus (1 member, 4 employees).

We are proactively following all CDC and Wisconsin Department of Health Services (DHS) protocols to lower the spread among members, staff, and visitors. Our commitment to the health and well-being of our members always remains our top priority.

Colder weather brings the inevitable coughs, sore throats, and sniffles. Please be aware that these symptoms could potentially be the result of COVID-19. We ask if you feel sick, please stay home until you can take a COVID test, and you fully recover from your symptoms.

We highly encourage everyone to get their flu shot, an updated COVID-19 booster, and take additional steps to protect themselves and others this season as cases of respiratory illness are on the rise nationwide. Please visit the DHS webpage to find a vaccine and booster location near you (<https://www.dhs.wisconsin.gov/covid-19/vaccine-get.htm>).

Thank you for your continued commitment and support of our Home.

Sincerely,

A handwritten signature in black ink that reads 'T. Servatius'.
